## 6. FINANCIAL REPORTS, DISCUSSIONS AND APPROVALS

6.1 Directors' Report – monthly billing and collections – discussion The Board packet contained Directors report. Total November water sales were \$20,496.15 and total receivables were \$24,532.71. No comment

## 6.2 Water Consumption and Sales

Board packets contained Water Consumption and Billings-Commodity Charges Only report. November gallons billed 727,510; average gallon per day per meter readings 124, per person 56; average monthly charge per account \$37.00; total monthly charges \$7,769; monthly deviation from budget -\$574; cumulative deviation \$14,688. No Comment

### 6.3 Income/Expense Report – discussion

Board packets contained an Income/Expense Report for November. Total income \$18,130, total expense \$18,857 with a net operating income of -\$727.

The formulas in the Capital/Other Expense need to be corrected/updated. No other comments.

6.3.1 New Well Report

Board packets contained a new well report for expenses as of November 30, 2020. Total cumulative expenses to date \$62,812.57. The expenses for the portable toilets need to be moved from the New Well project to the T.A. Grant project. No other comments.

### 6.4 Finance Officer's Recommendations - None

6.5 Treasurer's Report and Recommendations – discussion

Board packets contained a copy of the November Treasurer's report. Account balances were as follows: Capital Reserves \$242,425.45; Operating Reserves \$52,008.50; DWR Reserve CD \$28,706.34; DWR Loan Savings \$6,632.07; Checking Account as of 12/10/2020 \$59,747.87. No comment

### 6.6 November Warrants - discussion / approval

Verick moved to approve warrants #6496 through #6512 and 6521 through 6524, two EFTPS payments for Federal payroll tax deposits and two EDD payments for State payroll tax deposits. Seconded by Cline; all approved

6.7 Update on summary of Prop 84 grant balances-Discussion

Rosenblatt reported that we received the final payment of \$14,952.35 for the new roof. All the Prop 84 grants are complete and paid in full. Cline questioned if these funds were for reimbursed expenses paid from the Capital Reserves, and, if yes, are they being deposited back into the reserve account. Staff affirmed she was correct and the funds will be deposited into the Capital Reserve account.

## 7. MANAGER'S REPORT

6.1 Water Loss – small system leak. Discussion

Board packets contained a summary table of 13 month water loss history. November water loss was 26.9%, average water loss in the last 13 months has been 17.50%. Rosenblatt reported a large leak on 6<sup>th</sup> Avenue, under the freeway overpass. The leak was where an old water line was connected to a new water line. There was discussion of the new stream flow report that was added to the Managers report. Rosenblatt does not think the data is that helpful as presented. Hankin believes the data is useful and ask to have the report included every month. Rosenblatt will work with Swisher to develop a more useful reporting of data.

6.2 WCSD COVID 19 response: credit card payments

Levang reported that the credit/debit card usage is remaining about the same every month. In November eight customers used the service making a total of \$1,116.98 in payments and \$44.67 in customer fees.

## 8. ONGOING DISCUSSION OF SRF DBP PLANNING GRANT

8.1 Update on SHN activities required to secure permits for well drilling. No discussion

8.2 Update on progress for Well site 3 with LACO for CDP#2. Discussion Rosenblatt reported that he has a meeting with County Planning and Building Department staff and County Environmental Health tomorrow at well site 3. He has called drillers in Redding requesting bids, he has not heard back from any of them. Rosenblatt and Hankin are working to revise the work plan. Hankin and Rosenblatt are meeting with the State people tomorrow and will discuss the environmental side of drilling, the treatment plant and the transition line from the wells to the plant. They will be discussing whether to do them as one project or two separate projects. Rosenblatt said the State preferred inclusion of all aspects of the District's attempt to find new ground water supplies in a single project. He will know more after tomorrow's meeting.

8.3 Subcommittee (Rosenblatt, Swisher, Hankin) report on feasibility of drilling this fall. Rosenblatt is still trying to find contractors to submit on bids to drill the wells. Meanwhile he is trying to locate the equipment needed for staff to do the on-site prep work. Rosenblatt said the District will likely obtain further extensions on the CBP compliance order.

## 9. TECHNICAL ASSISTANCE GRANT FROM DEPT OF FINANCIAL ASSISTANCE

9.1 Update on progress of technical assistance grant from DFA

Rosenblatt said the engineers are collecting data and preparing paperwork. They are waiting for weather that would be suitable for wet weather testing. They are moving forward with installing a flushing point water from the slow sand filters and springs where it is entering the tanks to get a measurement of how much flow there is from the springs. Data concerning treatable stream flow would be significant in assessing the extent to which the project would provide benefit to the District.

# 10. TRINIDAD RANCHERIA REQUEST FOR WATER FROM HUMBOLDT BAY MUNICIPAL WATER DISTRICT (HBMWD)

10.1 Letter from the Board of Directors of the HBMWD regarding the participation of the Westhaven CSD in a feasibility analysis Discussion/Approval

Rosenblatt said we mailed our memo to HBMWD the same day we received the letter from their board. Verick wanted to make sure we were monitoring their website so that we would be alerted to updates or anything thing else that may be going on. He suggested developing a tickler file to remind us to check the website. There was discussion on the HBMWD feasibility study and what the cost would be. HBMWD requested to hear back from WCSD by February 4. 2021. Elaine Weinreb attended the HBMWD board meeting and said HBMWD wanted to assess how many communities would be interested in the HBMWD project and planned on sharing the cost of the study with the interested communities. Hankin pointed out that the memo we sent to HBMWD already addressed that we are not interested in HBMWD water, but may be interested in an intertie for emergencies. Weinreb and Hankin have been keeping on top of this and will continue to provide updates to the WCSD Board. Humboldt Alliance for Responsible Planning (HARP) is also following the HBMWD's & Rancheria project and possible they, too, could help inform the District. Hankin stated that the rest of the board should be personally following this as well. Supervisor Madrone and Weinreb said the Rancheria is required to post a \$10,000 deposit that would be used to pay for the requested feasibility study. The District was informed that the Rancheria is having difficulty obtaining the needed \$10,000. Madrone added that HBMWD needs to find new water customers since the pulp mills (which were using more than a million gallons a day) shut down. HBMWD would like potential new customers who might be served by the proposed Rancheria line extension to share in the cost of the requested feasibility study. Madrone was concerned that local residents, and, new Trinidad City Council members may not understanding the significance of

the larger issue of growth inducement and the sewage issues such growth would cause. Madrone added that the Coastal Commission's Executive Director said the Rancheria does not have everything needed to acquire permits for the hotel and that the current Rancheria wells have inadequate water supply to support the hotel. There was discussion of water for the fire department, the District's responsibility and how to address the HBMWD letter. Hankin proposed we take our time and carefully ponder both the HBMWD letter and the memo we sent to them, then come back to the January meeting with ideas for our response. There was board consensus to add this topic to the January WCSD Board agenda.

## 11. TRINIDAD-WESTHAVEN CSD INTERTIE

11.1 Communication with the City of Trinidad regarding a potential intertie between the Westhaven CSD and the Trinidad water system for emergency purposes such as fire, treatment plant failure or distribution system failures. Discussion/Approval Rosenblatt and Hankin had a meeting with the City of Trinidad to discuss a water resiliency plan and potential intertie. Rosenblatt gave a synopsis of the meeting, sharing that Hankin gave a Power Point presentation. The meeting went well, they had a good turnout and it generated a lot of interest. Supervisor Madrone said they did a fantastic job laying out the benefits. Madrone added that it is difficult getting the City of Trinidad to take action, it will take some pushing and cajoling. He suggested someone from the board attend City Council meetings. Rosenblatt volunteered to work with Pace Engineering to develop a one page document on the logistics and benefits of an intertie, which would include a letter of comment from the California Environmental Quality Act (CEQA) to distribute to the City of Trinidad Council and staff. There was discussion of the steps that will need to be taken to gain approval for and to implement the potential inter-district intertie. There was consensus from the board for Rosenblatt and Hankin to continue exploring this issue.

## 12. 2021 BOARD MEETING CALENDAR

12.1 2021 Westhaven CSD regular board meeting calendar. Discussion/Approval

Verick moved to approve the 2021 Board Meeting Calendar as presented. Seconded by Phipps; all approved.

3. REVIEW DRAFT LETTER TO THE HUMBOLDT BAY MUNICIPAL WATER DISTRICT REGARDING THE PLANNING FOR AN EXTENSION OF WATERLINE PROPOSED TO SERVE THE TRINIDAD RANCHERIA, CASINO AND HOTEL. Discussion/approval.

Hankin started the meeting giving a brief background of the issue and its potential future impacts on the community. Hankin said that he was not comfortable sending the letter without input from the Board. The Board felt the letter was well written. There was discussion on whether it should be from Dave Hankin, Board President or Paul Rosenblatt, General Manager. It was decided that it should be from Rosenblatt of behalf of the WCSD Board of Directors. The Board made revisions to the letter as Hankin edited the letter on the Zoom screen. (The original draft, edits and final letter are attached). Hankin said if any Board member wishes to further consider this letter before Rosenblatt mails it out please let him know and we can schedule another brief special meeting. The next HBMWD meeting is scheduled for December 10, it is important that the letter arrive before the next HBMWD meeting.

Hankin will send staff a clean copy to be sent to HBMWD, Humboldt LAFCO, Humboldt Board of Supervisors and California Coastal Commission

Hankin thanked everyone for a good and thoughtful discussion.

- <sup>1</sup> Changed formula subtracting Capital/Other expenses (\$46,402) from budget total so that the percentage of budget amounts would more accruatedly reflect actual budget percentages.
- <sup>2</sup> Admin & General is over because Property & Liablity Ins., \$4169 was paid and Workers comp, \$3204. November is high because of membership fees, double up of health insurance payments and Suddenlink.
- <sup>3</sup> Transmission & Distribution over budget. Totals are mostly payroll expense and aproximately \$2149 for leak repairs. December, 2020 \$5617.52 for leak repair
- <sup>4</sup> Water services over budget: Annual backflow testing charges of \$1120 and \$409 for emergency water deliveries. Also did not include expense and revenue for credit card paymnets. \$263.63 of water services/other is the 4% fee charged to customers for paying by credit card. There has been \$288 in bank charges (expense) as of 10/31/20
- <sup>5</sup> Water service and other includes backflow payments, customer credit/debit card 4% processing fees & State of CA \$1004 refund on Drinking Water Program 2016, 2017 & 2009

#### HUMBOLDT BAY MUNICIPAL WATER DISTRICT

To:Board of DirectorsFrom:John FriedenbachDate:January 7, 2021Subject:Water Resource Planning (WRP) – Status Report

The purpose of this memo is to summarize recent activities and introduce next steps for discussion.

#### 1) Top-Tier Water Use Options

#### a) Local Sales

Nordic Aquafarms – staff met with Nordic representatives on Dec. 18<sup>th</sup>. They are moving forward with permitting. May have public CEQA process during first quarter of 2021. Scheduling a water quality/supply staff level meeting for January 2021. Need to schedule HBMWD Local Sales committee meeting during first quarter 2021 to begin discussions regarding water rates.

i) Trinidad Rancheria – draft MOU (pages 2-4). The Rancheria has requested that language be inserted into the MOU to enable them to apply for grant funding for the project. They are exploring opportunities under the FEMA Pre-disaster mitigation grant program. They have proposed language. District Counsel has reviewed and edited proposed language. The Rancheria concurs with Counsel's edits. Staff recommends that our Board for consider and approve the attached MOU.

Staff sent inquiry letters to McKinleyville CSD, City of Trinidad, and Westhaven CSD regarding participation in the feasibility study analysis of a possible waterline extension to the Trinidad Rancheria. See copies of letters attached. (pages 5-9)

President Woo, Director Rupp and I attended the McKinleyville CSD board meeting on January 6<sup>th</sup> where they considered our inquiry letter. They approved participation in the feasibility study of connecting a possible line extension to the Trinidad Rancheria from the northern most area of the MCSD distribution grid.

ii) The next steps with MCSD will be to negotiate an MOU for their participation in the feasibility study. One issue to address is the fact that HBMWD and MCSD share the same law firm (The Mitchell Law Firm) as our District counsel. Therefore, our board will need to authorize a waiver of conflict for use of the Mitchell Law Firm to prepare an MOU between HBMWD and MCSD.

The City of Trinidad will consider our inquiry letter to participate in the feasibility study at their January 26<sup>th</sup> City Council meeting which begins at 6:00 p.m.

Independently, Westhaven CSD discussed the issue and sent HBMWD the attached letter stating that they were not interested in participating in a waterline extension. (page 10-11)

#### b) Transport

Sites Reservoir Article (page 12).

#### c) Instream Flow Dedication

Team is moving forward with edits to District's Habitat Conservation Plan (HCP).

TYPE OF ITEM: ACTION

ITEM: E.3	Consider Participation in Feasibility Analysis to Extend HBMWD Water Service to Trinidad Rancheria
PRESENTED BY:	Patrick Kaspari, General Manager
TYPE OF ACTION:	Roll Call Vote

#### **Recommendation:**

Staff recommends that the Board review information provided, discuss, take Public Comment and approve working with HBMWD and Trinidad Rancheria to assess the feasibility of extending water service to the Rancheria via wheeling HBMWD water through the MCSD water distribution system. Staff further recommends that any feasibility studies remain cost neutral for MCSD and direct costs be borne by those interested in being served.

#### **Discussion:**

Humboldt Bay Municipal Water District (HBMWD) General Manager, John Friedenbach, submitted a letter to MCSD inquiring whether we would be willing to participate in investigating the feasibility of connecting a line extension to Trinidad Rancheria from the MCSD water distribution system (See Attachment 1). HBMWD would like to know whether MCSD is willing to even consider the concept of a line extension from the north end of MCSD's distribution grid. If MCSD is unwilling to allow the possibility of a connection, then the feasibility analysis would not bother to explore this alternative and would have to pursue other options.

Trinidad Rancheria has approached HBMWD to determine their willingness to provide water to the Rancheria to supplement the water from the City of Trinidad. HBMWD is the regional water wholesaler and their District Boundaries coincides generally with the MCSD boundary to the north, but since they are a water wholesaler, it would be possible for them to obtain a change in point of use from the State Water Resources Control Board to serve the Rancheria. MCSD's Service Area Boundaries end at Dows Prairie to the north, so we could not sell water directly to the Rancheria without approval from LAFCo to revise our Service Area Boundaries. However, HBMWD could likely utilize MCSD's system for "wheeling" water to the Rancheria. The MCSD system would then basically serve as an extension of the HBMWD distribution system. A waterline would still have to be constructed from the north end of the MCSD system to the Rancheria, but the use of the MCSD system in Arcata to the Rancheria. If this alternative is deemed feasible, the retail water contract would be between HBMWD and the Rancheria; however, there would also need to be a contract between HBMWD and MCSD to recoup our costs for the use of our system.

There are numerous other questions and concerns associated with this alternative and the overall discussion of a waterline extension to the Trinidad Rancheria. The feasibility study would begin to address these questions, and again, HBMWD is interested at this juncture only in whether MCSD is willing to consider this alternative.

There are also various other community concerns, opinions, and background materials on this option for providing water to Trinidad Rancheria. Staff has included as **Attachment 2**, several letters, news articles and other background materials that have been included in the HBMWD Board packets at their June, July, August, October, November, and December Board meetings.

#### Alternatives:

Staff analysis consists of the following potential alternative

Take No Action

#### Fiscal Analysis:

The short-term fiscal analysis is expected to be minimal, assuming the Board does agree with Staff's recommendation that the costs associated with the preparation of the feasibility study be borne by others. A long-term fiscal analysis has not been completed, but it is expected it would be part of the feasibility study in order to develop a cost of the water to the Rancheria. Costs for the water would have to cover HBMWD's wholesale costs as well as the energy, system wear, and administration costs that MCSD would be paid for wheeling the water through our system.

#### **Environmental Requirements:**

Not applicable at this juncture. Any construction/connection would require CEQA analysis and permitting as well as other Local, State and Federal permits.

## Re: Participation in Feasibility Analysis to Extend HBMWD service to WCSD

Dear Board Members,

As you may be aware, our District has been approached by the Trinidad Rancheria to explore the feasibility of extending municipal water service to their tribal lands near the City of Trinidad. Our District is in the initial stages of its investigation and analysis of this possibility. Would the WCSD be interested in participating in this analysis? At our July Board meeting, your General Manager mentioned that he would be interested in exploring the feasibility of an intertie for supplemental water supply options to the WCSD if a waterline extension were to be sited near the WCSD boundary. Please note that the feasibility analysis does not obligate or otherwise determine whether a waterline extension will be constructed.

If WCSD has been conducting long range water planning, one possible source of water resilience is potential supply from our Humboldt Bay Municipal Water District. If WCSD desires to have this as a viable alternative, now is the opportunity to investigate that possibility. As you know, sizing a waterline extension is dependent upon the water consumption demands by the end users. If a potential waterline to the Rancheria is sized only for their consumption needs, the possibility of any future extension to or connection with WCSD will be very unlikely and will cost considerably more.

The HBMWD Board directed that a feasibility analysis for the Rancheria move forward, so we respectfully request that you indicate whether you would like to participate no later than by February 4, 2021. If we do not hear from you by then, we will assume that you are not interested and we will proceed with the feasibility analysis without the WCSD.

HBMWD staff or Directors are available to attend a WCSD board or committee meeting to answer any questions that you or your constituents may have regarding this feasibility analysis.

Respectfully, algert

#### MEMORANDUM

To:	Humboldt Bay Municipal Water District
From:	Paul Rosenblatt, General Manager, Westhaven Community Services District
Subject:	WCSD involvement in Trinidad Rancheria's request for water from HBMWD
Date:	01 December 2020

At the 12 November 2020 meeting of the Humboldt Bay Municipal Water District (HBMWD), during discussion of the Trinidad Rancheria's (TR) request for an out of service-area water line extension to the TR's lands near Trinidad, HBMWD Board members repeatedly referred to an apparent interest of the Westhaven Community Services District (WCSD) to connect to the requested water line extension. This topic was discussed at the 18 November 2020 meeting of the Board of Directors of the WCSD. This memorandum is written at the request of the WCSD Board.

WCSD provides water to approximately 250 residential households within its Westhaven District. WCSD is currently engaged in a planning grant designed to secure additional groundwater supply (test wells to be drilled at three favorable locations) and a Technical Assistance Grant designed to determine a cost-effective treatment system for the WCSD's combined groundwater (wells) /surface water (Two Creek) supplies. Together, we hope that these efforts will expand our supply of water, while ensuring that state and federal disinfection byproduct standards are met, and will allow us to add additional high priority District resident's to our system who are not currently served (e.g., those existing homes with contaminated wells or those with insufficient supply).

When the WCSD was first formed in 1989, we explored the feasibility of hooking up to HBMWD. Our consulting engineer estimated the probable cost of bringing a line north from Dow's Prairie to Westhaven. The cost was so high that the Board dismissed the idea long ago and has not seriously reconsidered this option since. WCSD receives revenue solely from its water sales, our customers are from an economically disadvantaged community, and our current water charges to customers are high. We are not in a financial position to fund a mainline extension.

Although the WCSD has therefore not requested connection to the new line sought by the Trinidad Rancheria, I correctly expressed WCSD's interest in being fully consulted and briefed on the Rancheria's request as the HBMWD moves forward with its consideration. If, for example, HBMWD were to request that its mainline extension rely, in part, on the existing infrastructure of WCSD, or that the physical location of the proposed line extension were to pass through our District boundaries and impact our existing infrastructure, then we would very obviously be an "interested party" that must be consulted. If it were possible for additional fire suppression water to become available from a mainline extension, without charge to WCSD for construction of the extension itself, then WCSD would certainly be interested in that possibility.

To summarize, the WCSD expresses a desire to be kept abreast of HBMWD's response to the request of the Trinidad Rancheria for a mainline extension from HBMWD (via the McKinleyville Community Services District). But

the WCSD has no desire to augment or replace its water supply via a connection to the mainline extension requested by the Trinidad Rancheria. The WCSD takes no position on whether or not it is appropriate for the HBMWD to develop an out of service-area mainline extension to provide water to the TR's lands near Trinidad.

#### AGREEMENT FOR DISCONTINUATION OF UNAUTHORIZED SERVICE CONNECTION

This Agreement is entered into by and among the Westhaven Community Service District, (WCSD), a legally formed Community Services District, and <u>Rob and Lucy Diggins</u> herein referred to as "property owner", and concerns unauthorized service connections on parcel # <u>514-041-05</u>.

WHEREAS, the District has identified a number of unauthorized water service connections; and

WHEREAS, the water for many properties located in the District is provided by wells that have experienced diminished water production and/or contamination; and

WHEREAS, the District has an obligation to provide water service to all properties in the District but the existing water supply of the WCSD is inadequate to meet this obligation; and

WHEREAS, it is the District's policy that properties which have dwellings which were constructed prior to December 31, 1987, and for which well water is inadequate or contaminated have the highest priority for new water service connections; and

WHEREAS, the WCSD has arranged for delivery of water under emergency circumstances, during periods of acute water shortage during the late summer and early fall, through the Westhaven Volunteer Fire Department at a fee, to District property owners who have inadequate or contaminated wells, and who possess adequate storage units; and

WHEREAS, the policy of the Westhaven Mutual Water Company was that one share entitled a property owner to a single service connection, and this same interpretation has been adopted by the WCSD; and

WHEREAS, unauthorized service connections diminish the WCSD's ability to meet its obligations as prioritized by the District; and

WHEREAS, the property owned by property owner has been identified as having one or more unauthorized service connections; and

WHEREAS, it is in the best interests of the District of offer to compromise and settle the matter of unauthorized service connections as expeditiously as possible, and to offer as an inducement to such settlement the highest priority for new service connections to those properties which immediately discontinue unauthorized service connections.

WCSD\Diggins\Disconti.D2 12/09/91 3:35pm NOW THEREFORE, it is agreed by and among the parties as follows:

Limitations on Use of Unauthorized Service Connections: 1 . The property owner hereby warrants and represents that each unauthorized service connection on the property owner's parcel will be discontinued as of March 1, 1992. During the term of this agreement the property owner will not reconnect or otherwise use such unauthorized service connection. The property owner shall permit the District Manager to verify by on site inspection that each unauthorized service connection has been disconnected and to verify, periodically, by such inspection, that no unauthorized service connections have been reconnected or otherwise used. Verification by inspection shall occur only upon advance notice to property owner of the time and date of the proposed inspection to verify and shall take place only in the presence of the property owner. The property owners shall not be responsible for the cost to the District for such verification. Nothing herein shall preclude or limit the right of from seeking an the District administrative search warrant and conducting inspections pursuant to such warrant for the purpose of verifying compliance with this agreement.

2. Priority For New Water Connection: The District hereby agrees that the property owner's parcel shall be placed within the category of parcels receiving highest priority for a new service connection (Section 401, WCSD Ordinance 90-1, Priority for New Services, Contaminated or Insufficient Wells), provided no violation of this Agreement has occurred during the term of this Agreement. The new service connection provided for herein shall be in addition to the service connection which has already been received by the property owner in exchange for their Westhaven Mutual Water company share. Upon payment of the fees prescribed in paragraph 3(c), the property owner shall be entitled to the new service In the event the property owner, after paying connection. such fee, does not use the new service connection at the time of its availability (for any reason), the right to use the new service connection on the property shall continue so long as the property owner continues to pay the stand-by fee for an inactive hook-up. (The fee for such hook-ups at the present time is \$10.00 per month, but may be more, or less, in the future.) In the event the property owner is unable to pay the new service connection fee described in 3(c) below, at the time the new service connection is available, for any reason including financial hardship related to the cost of complying with this agreement, the property owner shall have the right to petition the then elected Board of Directors of the District for other arrangements including deferred payment, without prejudice on account of this agreement or the facts which gave rise to the dispute compromised and settled herein.

3. Establishing New Service Connection: When the District has sufficient water supply to add new service connections to those parcels within the highest priority for new service connections, the property owner, if requesting a new service connection, shall:

A. Provide the District with evidence that the parcel has a sanitation system sufficient to meet Humboldt County Public Health Department standards for the number and character of dwelling units to be serviced by all service connections on the parcel.

B. Pay retroactive fees for previous unauthorized diversion of WCSD water, as established by WCSD Resolution 90-5, which fees are agreed between the parties to be \$280.00.

C. Pay all standard fees for each new service connection requested on the parcel. The amount of such fees will be established at such time as the District's cost to expand the WCSD water supply and distribution system has been established and will be the same as the amount of such fees required from any other parcel owner within the District who requests a new service connection.

4. <u>Termination of Restrictions</u>: At such time as a new service connection has been provided owner pursuant to this Agreement by the District, the provisions of this Agreement pertaining to limitations on use shall be of no further force and affect.

5. <u>No Admissions</u>: A dispute exists between the parties regarding the subject matter of this agreement. This agreement is not intended to be an admission by any party as to the validity of any other party's claim in regard to that dispute. Rather, this agreement represents an attempt to compromise and settle the dispute on the terms stated in this agreement.

6. Attorney's Fees: In the event any action is brought to interpret or enforce any of the terms or provisions of this Agreement, the prevailing party in any such action shall, in addition to costs, be entitled to such reasonable attorney's fees which the Court shall establish in that action or in a separate action brought for the purpose of establishing attorney's fees.

(SIGNATURES FOLLOW ON PAGE FOUR)

IN WITNESS WHEREOF, the parties have caused this Agreement to be duly executed.

To: Section 401 Property Owners Westhaven Community Services District (WCSD) From: Board of Directors Prioritization of parcels in Section 401 of WCSD Ordinance 95-4 Subject:

The WCSD Board of Directors is discussing further prioritization of the 38 parcels within section 401 of Ordinance 95-4: An Ordinance Establishing Priority for Providing Water Service to District Residents. In order to do this, the Board wishes to identify those households which are in most extreme need for connection to the WCSD water system. Proof of extreme need will be required before any parcel in section 401 can be placed in a higher priority for connection than other parcels in section 401. Proof of extreme need will require one of the following:

- Proof that your water source fails completely during dry season as 1. evidenced by the existence of a storage tank and documentation of water deliveries.
- Volumetric testing conducted during the dry season, in conformance with 2. the procedures outlined on the reverse, which shows a maximum yield of less than 75 gallons per day.

While the District's ultimate goal is to connect all households in the 401 - category to the community water system, the Districts water supply remains limited at this time. Should a small number of water connections be made available, the fee for connection will range between \$4,000 and \$8,000 (this fee is in line with connection fees currently being charged in Trinidad); however, no final decision regarding connection fees has been made by the District's Board of Directors.

Please indicate below which category best describes your situation. For consideration, this letter must be returned to the WCSD office by August 1, 1997.

> YES, my parcel #\_\_\_ is in extreme need for a connection to the Westhaven Community Services District water system; I can provide proof of need, and I am willing to pay a connection fee of between \$4,000 and \$8,000.

Subject: Disconnection of water service AP #514-041-05

Dear Lucy and Rob,

This letter is to confirm my verification of disconnection of WCSD water service to the mobile home on your parcel AP #514-041-05 at 884 9th Avenue.

On March 13, 1992 I did inspect the disconnection of the mobile home and observe that water is now supplied to the dwelling by means of a storage tank and hydropneumatic pressure system.

During the same visit I provided the tenant of the mobile home with a water use/need and income survey form as sent to all owners of parcels in Sections 401 and 402 of Ordinance 90-3. Since you did not return the survey form sent to you, I am assuming that you do not wish your incomes to be considered. Please let me know if that is not the case.

Thank you.

Hi Richard -

Is it spring yet? I did not supply income info because it seemed to me the household needing water is not Rob's + mine, but Francine's. I did not think our -mine + Rob's - information is relevant - there's a good chance I do not understand correctly what you need the info for.

If you want our income info it is relevant I will send it, alherwise I thought you'd be asking Francise those questions. MAS things Stand will probably be home Sooner hather than leter with current furning of events. See you soon-
